

CK60

Introduction

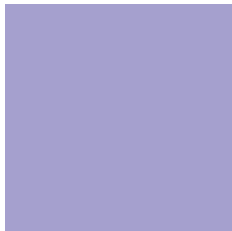

AFC® CK60 is a circular knitted fabric designed for the medical industry. It features a special design that combines excellent softness, rich texture, superior water absorption, dust-free properties, and durability. Compared to CK10, it retains the same excellent water absorption while its unique textured weave enhances anti-slip properties, ensuring safer surgical instrument placement.

Characteristics

- 1. Excellent water-resistant, best for surgical gown critical area
- 2. Comfortable
- 3. Autoclave accepted

Applications

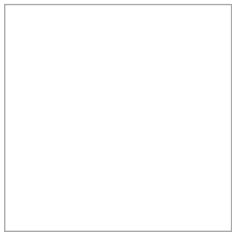

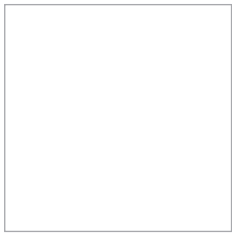

For surgical drapes, coverings, absorbent pad and wiper.

Dark green

簡介

AFC® CK60為針對醫療產業所設計之長纖圓編針織布。採用特殊的設計讓織物兼具絕佳的柔軟度、豐富的觸感、優良的吸水速度與不發塵、耐磨等特色。相對於CK10，保有相同優良的吸水性外，特殊的凹凸組織設計能體現更佳的止滑效果，對於器械的放置更加安全。

特性

- 1. 不發塵
- 2. 吸水性佳
- 3. 觸感柔軟，厚實
- 4. 止滑、耐磨性佳
- 5. 可耐高溫洗淨及壓力釜殺菌

應用

洞巾、檯面覆蓋巾、吸血巾、擦拭布

Style No.	CK60	Test Method
Composition	100% Polyester Filament Yarn	
Weave	Knitted	
Weight	350 g/y, (250 g/m²)±5%	JIS L1096
Width	60 inch, (152 cm) ± 5%	ASTM D3774
Yarn Type	Polyester 150D	
Absorption	≥2.5 ml/g	IEST-RP-CC004.3
Absorption Rate	≤3.0 sec	AATCC 79
